TENSION NOT YET RELIEVED

One of the most Complicated Situations in Recent History.

DIPLOMATS PUZZLED

GREAT BRITAIN WILL TRY NOT TO FORFEIT GOOD WILL OF FRANCE AND GERMANY—WAR PREPARATIONS.

LONDON, Oct. 27.—One of the most complicated diplomatic situations in recent history, and one that is attended with the most dangerous possibilities for the peace of the whole of Europe, exists tonight, with no sign of immediate solution.

The tension that arose when the dispute between Great Britain and Russia resolved itself into the simple question whether Russia would or would not give guarantees in advance that the Baltic squadron should be administered to the offending officers of the Baltic squadron, has been modified by the introduction of an entirely new set of contentions contained in Admiral Rojestvensky's report, yet the most astute diplomats who recognize a temporary improvement in conditions, are puzzled by the complications that so curiously caused by Brest. However, there is instilled a very strong conviction that a way should be found other than to resort to war.

War Office Silent.

The foreign war office officials are as puzzled as the outsiders, perhaps the policy of silence and the British habit of silent points is emphasized. The following changes have occurred in the week London and St. Petersburg since the statement that a reply from Russia has been received relative to the explanation that Russia is absolutely ignoring the British representations.

Had Admiral Rojestvensky arrived, it is probable the dispute would be settled and any other difficulties, if there happen, are generally held to prevent the presentation of the ultimatum which Great Britain is doubtlessly intended to send. Although Lord Lansdowne has frankly said that the circumstances reported by Admiral Rojestvensky are to him inconceivable, the foreign minister is not prevented from seeing that new light has been thrown on the outrage and that diplomatic usage now requires less urgent action than the British government had first contemplated.

War Preparations Continue.

In the present temper of the British nation it is not at all likely that preparations for hostilities will be relaxed

ROJESTVENSKY MAKES REPORT

RUSSIAN ADMIRAL CLAIMS THAT HE FIRED FIRST AT VANGUARD WITHOUT EXPECTING ATTACK FROM HIS SQUADRON.

ST. PETERSBURG, Oct. 28.—The naval general staff published the following dispatch from Admiral Rojestvensky:

"The North sea incident was caused by two torpedo boats advancing to attack without lights, under cover of darkness, against the vessels leading the detachment. When the detachment turned on its searchlights and opened fire the weapons of several small steamers resembling steam fishing boats was discovered. The detachment endeavored to separate and cease fire as soon as the torpedo boats were out of sight.

"The English press is indignant because a torpedo boat fired on the Kamchatka and the vessel opened fire and sank the vigilant. Now there was not a single torpedo boat near the detachment, contrary to the usual practice, that torpedo boat which was not sunk but only [illegible] and the other [illegible] because we mistaken them for enemies. On account of their shortness outlines into the center of the [illegible] of our [illegible]

COLORADO IS REPUBLICAN

State Chairman Fairley Issues Official Statement.

PLURALITY MAY BE 30,000

FRIENDS OF LAW AND ORDER ARE URGED TO SPARE NO EFFORT FOR THE REPUBLICAN TICKET.

Special to the Gazette.

DENVER, Colo., Oct. 27.—Chairman Fairley of the state central committee today issued the following statement:

"The political center of Colorado will soon be decided. I make the following official forecast of the result most confidently after a thorough study of the situation.

"Reports are daily pouring into the office from every section of the state showing an extraordinary change of sentiment and a [illegible] on the part of the voters to indorse and support the Roosevelt and Fairbanks policies.

"The daily circulation of outrageous and manifest falsehoods by the opposition [illegible] of the forgery of [illegible] telegram and statements, will probably continue to the end; nevertheless, it will be impossible for the Democratic managers to [illegible] the result is bound to be an [illegible] Republican victory.

"Deductions made from reports received from every section of the state indicate that the Republican state, county and national ticket will have a plurality of [illegible] 30,000 to 35,000, and the present extraordinary activities of Democratic [illegible] will probably increase this plurality materially.

"The police [illegible] to safeguard all [illegible] against the [illegible] is found that the Democratic managers [illegible] a number of [illegible] from which they expect to [illegible] at the last moment.

"From now until the close of the polls on November 8 the friends of law and order should redouble their efforts [illegible] the end that the Republican ticket may be [illegible] and the [illegible] law and order [illegible] in Colorado.

HAMLIN AND VAILE SPEAK AT VICTOR

BOTH TAKE UP LOCAL AND STATE ISSUES AND SCORE THE WESTERN FEDERATION OF MINERS.

Special to the Gazette.

VICTOR, Oct. 27.—"Anyone can lose his job by the Western Federation of Miners the theft houses shall rot and the machinery go to decay."

"The Hon. James Burns says wages will be cut; that cuckoo of Patterson's, the empty echo of an empty, feeble mind is badly mistaken."

A Challenge to Stewart.

"I will give Mr. James Stewart, candidate for sheriff, who said that he could have the heads of the imprisoned boys in the penitentiary within 90 days, a car heater job than that of sheriff of Teller county. He shall have $10,000 and expenses if he can capture the murderers of the Finley men who were killed at the Independence depot.

"The above words were uttered by C. C. Hamlin, the Republican candidate for district attorney from the Fourth judicial district, at the Victor Opera house tonight.

"The largest crowd that ever attended the Opera house in this city greeted the speakers of this evening's meeting, C. C. Hamlin and Joel F. Vaile, who discussed local issues, particularly the present and past deeds of the W. F. of M. who have come to near wrecking the greatest mining camp on earth.

Hamlin Shows Bad Faith.

Mr. Hamlin said in part: "[illegible] made a good faith [illegible] of the W. F. of M. [illegible] to give him its one and [illegible] he will [illegible] put him [illegible] to my [illegible] and I will [illegible]

BIG OVATION WAS TENDERED BROOKS

Hall Packed to Overflowing by Voters at Colorado City Last Night—Law and Order Speeches Loudly Applauded.

The largest Republican demonstration [illegible] in Colorado City [illegible] last night. The Sanborn pavilion was a fitting [illegible] on the occasion. The Woodmen band of Colorado City led [illegible] of the procession, and the strains of "There's Be a Hot Time in the Old Town Tonight" raised the people to a high pitch of enthusiasm.

Following in carriages came the speakers. The Hamlin club in connection with the [illegible] and green lights, [illegible] the entire avenue.

Large Representation.

The members of the Roosevelt club and Women's Republican league, and [illegible] were well represented. Trolley cars from the Springs and Manitou continued to bring in enthusiasts until after the hour of the opening of the meeting in Wagotte's opera house.

Among the people who came out from Colorado Springs were a number of ladies from the Women's Republican [illegible] Mrs. [illegible] Goddard, Mrs. R. Ashby, Mrs. G. B. Tripp, Mrs. W. S. Burnham, Mrs. B. F. Hagan, Mrs. R. E. Lewis, Mrs. [illegible] Conley, Mrs. Orpha Barr, Mrs. [illegible] Mrs. C. W. Parker, Mrs. Hobart Kerr, Mrs. Walker, Mrs. F. S. Brooks, Mrs. Fleming, Mrs. G. M. Irwin, Mrs. Mary Green, Miss Inez Smith and Miss Ella Chandler.

Many Business Men.

The business men of Colorado Springs were represented by Alex Sturgeon, C. W. Parker, Judge R. E. Lewis, Colonel E. T. Ewing, W. L. Stratton, E. W. Davis, George H. Tripp, H. W. Mitchell, Willis Stratton, G. M. Irwin, E. W. Lawrence, R. C. Davis, E. W. Davis and F. M. Mathews.

[illegible] J. R. Jackson, a former Democrat of Colorado City, presided. [illegible] J. R. Stephen, an ardent supporter of the Democratic leaders, and Jim J. R. Lynch, of Pueblo, also a member of the same organization, [illegible] Attorney W. N. Smith, of Colorado Springs, made a few remarks in support of the Republican ticket in the evening, however, was made by Hon. Franklin E. Brooks, congressman-at-large from Colorado.

Mr. Swift's Speech.

Mr. Swift's remarks were mostly directed to national affairs. He opened by tracing the history of the Democratic party from the days of Jefferson, and showed that it had time and time again betrayed its trust. When the speaker spoke of Jefferson as the great democrat, and then spoke of the present attitude of the party on this subject, he was greeted by rounds of applause.

"The party, referring to the Democratic, has also retracted its steps on the question of the gold standard," said Mr. Swift. "The party receding is not the party for me." (Great applause.)

The speaker then [illegible] the history of the increased national debt under President Cleveland, of the increased hard times under that administration which finally led up to the march of Coxey's army, and a complete overthrow of that party at the polls. The speaker's description of Coxey's army brought forth scores of laughs.

Vote for Bryan.

Mr. Swift closed his remarks by urging every effort to get their supporters out to vote and then went well instructed through the audience for the purpose of asking their candidate for governor, a hearing reception and the impression that his audience was solid for him.

The meeting was preceded by a parade in which bands, drum corps and torches were prominent and a big batch of Pueblo marchers, who came up to help the El Paso county contingent, swelled the [illegible] until it covered several blocks. The Midland band, the Pueblo band, the Pueblo Novelty drum corps and a Colorado Springs drum corps furnished the music. Ex-Governor Adams rode in a carriage near the head of the procession accompanied by County Chairman W. [illegible] Doyle, James F. Burns and Judge A. J. Gunnell. There were [illegible] cages in the contending local leaders and Democratic women.

Judge Gunnell Presided.

Temple theater was very prettily decorated in the national colors. Judge Gunnell presided and made a short address introducing Hon. Alva Adams. The Democrats hastily [illegible] their favorite. In opening he stated that he had addressed many audiences this campaign but "never a one as grand and as great as this in the republican stronghold of Colorado." Continuing, he said: "If it is Peabody will lose the banner county on which he has depended."

The speaker then [illegible] his attention to attacking Judge H. H. Babbitt of this city for changing his politics in this campaign. He then referred to John H. Mathews and, after styling him "one of the [illegible] the greatest criminal lawyer in Colorado and one of the greatest in the [illegible] states," invited his auditors to [illegible] speeches for governor.

Attack on Republicans.

Continuing, Mr. Adams said:

"In this campaign the one side is long on principles and short on cash and the other side is long on cash and short on principles. The corporations and mine owners are [illegible] for the re-election of Governor Peabody, they are willing to furnish the sinews of war. This is not a party issue. Everybody is for Republicanism. The Republicans and Democrats differ on finance and other great questions, but when it comes to the question of individual liberty there is no difference between them.

"The corporations want Peabody elected because they know he will do what they want him to do. I tell the corporations I'll do what they want me to do if they will only ask me to do what is right. We know they have helped to build this state of Colorado but that does not give them the right to dictate the government of the state any more than the parents who bring a child into the world have a right to farmer and harass that child's career as a man."

[illegible]

Mr. Adams denied that he had given any promises to the Western Federation of Miners and declared: "I stand before you clean-handed and honest and I propose to go into the capitol at Denver as clean and as honest. There will be no appointments made until after election. I say to the Western Federation of Miners, 'I am not for you or against you so long as you obey the law; I say to the corporations 'I am not for you. All you have to do is to obey the law and you will all be treated the same.'"

Here a voice called out: "Has the Western Federation of Miners done that?" Mr. Adams answered the question as follows:

"There have been criminals in the Western Federation of Miners and there have been criminals among the mine owners but no matter where he is, or under what organization he is sheltered, the criminal shall be sought out and punished."

MONTANA MAN HAS AN AIRSHIP

Successful Trial of Another Flying Machine at St. Louis.

INVENTOR WAS IN CHARGE

AND DIRECTED FROM OF NO VESSEL TOWARD ALL POINTS OF THE COMPASS — ANOTHER TRIP.

ST. LOUIS, Oct. 27.—Another great flying machine in the air at an average of [illegible] above the heads of [illegible] thousand spectators the airship described and built by F. G. Swartos, of Helena, Mont., made what the inventor declared was a successful flight today in the aeronautic concourse at the World's fair today.

The big cigar-shaped balloon bearing its burden of car, motor, machinery and operator rose from the ground at [illegible] and after [illegible] the air for 10 minutes during which time Swartos directed the prow of his vessel toward all points of the compass slowly descended to the ground near the starting place and was secured by the attendants.

Used Anchor Rope.

While Swartos appeared to have absolute control over the machine an anchor rope about 50 feet long was used, one end of which was held by an assistant during the entire flight.

To the Associated Press Swartos made the following statement:

"This test was made to determine the feasibility of my airship. I had intended making a trip over the fair grounds but found that the rapid consumption of gas was too reducing the driving power, and in order to maintain altitude I thought it best not to attempt it.

Confidently Views Control.

"During the 15 minutes I was up my airship was under control at all times and I proved that I could at will make a long trip. The airship maintained perfect control and I could at any time in the day time that I had chosen proceed a long trip, the only circumstance being the unfavorable condition of wind.

"I believe, if the weather permits, to make a practical demonstration of my invention in the near future and will make the start from the middle of the [illegible]

The Swartos airship resembles about an [illegible] without an operator. The gas bag is cylindrical in shape, is 75 feet long and about 15 feet wide at the center. The bag contains 15,000 cubic feet of gas when inflated.

Of Aluminum and Wood.

The frame of the ship is of aluminum and wood and the power is derived from a [illegible] gasoline engine. Motion is given to the airship by means of two large side wheels or fins each consisting of four blades so constructed that they automatically feather [illegible] the stroke against the air and do not expend until again in position.

BIG OVATION WAS TENDERED BROOKS

(Continued from Page 1.)

[illegible] has always been with us and may be for years to come. It is the outgrowth of the banding of men together for mutual protection in the form of labor unions, and their organization has often been of the greatest helpfulness.

"When I speak of unionism I mean the best government and the best conditions. There is a vast difference between the radical and the conservative union.

Sentiment Applauded.

"All the greatest successes of the past have been brought about by those of the conservative class. (This sentiment was received with a burst of applause, showing the feeling of the audience.)

"The conservative organization setting out to win a great cause almost invariably comes out successfully, while the radical stand cannot be supported. The public will not stand for this and the sooner we learn it the better.

"The union that treats its members as problems, that increases its membership through its own usefulness and that is led by men of honor who are honestly seeking to raise the standard of honest labor will ultimately succeed. On the other hand the organization which [illegible] its membership by intimidation and violence and which treats its members as subordinates cannot long succeed.

In Striking Contrast.

In this connection Mr. Stephen took occasion to contrast such organizations of labor as the Western Federation of Miners, which he could hardly refer to in respectful terms, and the Locomotive Engineers, of which he has been a prominent member for 22 years. His blood seemed to boil when he referred to the insults which Moyer had heaped upon President Arthur, of his organization, whose name stands in the profoundest respect among the better class of labor organizations.

The insults which Mr. Stephen referred to were those contained in letters which Moyer sent to President Arthur after the latter's refusal to join his organization with the Western Federation of Miners in the outrages in the Cripple Creek district, and also to the letters which he sent to other labor leaders.

"Never since the Bull hill troubles have there been serious difficulties in the labor world of this state until the advent of Moyer," said Mr. Stephen. "At the time of his appearance 90 per cent, and perhaps as many now, of the members of his organization are among the best men who ever breathed the air of Colorado. They are honest, industrious citizens, intent on supporting their families and making the best of American citizens.

Advent of Moyerism.

"And they would have had no trouble had not Moyer and his executive committee of dynamiters appeared. (Applause.) His coming with his band meant desolation to the home of his own followers and to the industries of the state. (Applause.)

"Wake up laboring men. Do not be carried away with the policy of Moyerism. The American people will not be carried away with the radicals. If so-called moderate men will have it peacefully."

Mr. Stephen spent some time discussing the question of deportations showing it to be almost as old as the world itself.

From Personal Knowledge.

"For eight years this has been a daily occurrance in the Cripple Creek district, I know whereof I speak for I have seen cases myself. Some five years ago I was running into the camp on my engine in the early morning when I heard a cry of 'Jack' coming from a point near the Y. I investigated and found three men bruised and bleeding. Upon inquiry I found that they were men who had attempted to get employment and had been mobbed by members of the anarchistic organization of the camp because they were not members of the union. They begged to be taken to Colorado Springs and placed in a hospital and I took care of them. On another night I took an old man with me into the camp and as he was alighting from my engine he was set upon by three desperadoes and frightfully beaten because they thought he was coming to seek work when he had no such thought."

Mr. Stephen grew eloquent as he told of the real objects of unionism in contrast to the kind seen in the Cripple Creek district.

"If Governor Peabody made any promises in his Cripple Creek campaign, and I think he did, and perhaps was the [illegible] of the militia which allowed the blowing up of the Independence station, he should have sent the guard there until the opposing factions could have settled down."

Mr. Stephen closed by giving the history of the forty-hour records of the state that it was killed by a Democratic legislature which preferred to spend the night "boxing" than to attending to the interests of the working man.

At the conclusion of the speech there was a perfect storm of applause which the speaker was obliged to acknowledge.

Another Engineer.

Mr. Stephen was followed by the Hon. J. B. Lynch, of Pueblo, a fellow member of the Locomotive Engineers.

"I have been a member of the Republican party for 40 years and I have [illegible] Lynch [illegible] the state [illegible] of the state are with [illegible]

[illegible] Lynch [illegible] Lord Lansdowne's [illegible]

[illegible] and lawlessness for the protection of [illegible] property.

"There is no half-way [illegible]. You must either support law and order or condemn it. (Applause.)

"There has never been a time in the Cripple Creek district when peace reigned as it does today. (Great applause.) All business interests are forging ahead and a reign of unequaled prosperity seems assured if the present conditions are allowed to proceed."

Mr. Brooks Cheered.

The introduction of Hon. Franklin E. Brooks again brought the audience to a high pitch of enthusiasm. President Jackson took occasion to speak a word on the importance of returning Mr. Brooks to congress, which received a hearty indorsement from the audience.

In opening Mr. Brooks referred to the remarkable change of sentiment being shown in favor of Governor Peabody as the campaign progresses and said that the demonstration of the evening was right along the line which he had witnessed all through the state during the past two weeks.

"On the 8th day of November, I am confident, we shall carry every office on the ticket from the governor to constable," (long applause) said Mr. Brooks. "When I started out on my tour of speaking about two weeks ago I talked national issues but these have long ago ceased to be vital for the election of the national ticket is assured beyond any doubt.

"Both parties have a common heritage, but the Democrats have long been merry. Their present platform is one of avoidance, shrinking, protest and without an affirmative line in it."

Mr. Brooks asked his hearers to read the letter of acceptance of President Roosevelt and then compare it with Judge Parker's letter, which he styled "Parker's Pink Platitude for Pale Politicians." (Laughter.)

Tariff Issue.

The tariff issue was then discussed somewhat briefly with especial reference to its local bearing. In this connection he told of an incident which he had witnessed during his recent trip to Las Animas county. A Mexican was about to purchase a Parker button but upon learning that he was going to wear the badge of a Democrat decided not to invest as he had had experience with Democrats on the wool question.

The trust question received a forcible presentation. "Under the Republican party 14 of the largest trusts of the country have been created," said the speaker, "and the greatest of them all in many respects, the Northern Securities company, has been put out of business. Parker is the acknowledged friend of the trusts and may be seen at almost any time associated with the great trust leaders of the country.

"With all of these facts before the American people the Democratic leaders will persist in saying that the tariff is the mother of trusts and that as the Republican party is back of the tariff it is responsible for the trusts.

The Middle Class.

"The Republican party is not of the blue bloods of the land but it is composed of that great army of persons in middle circumstances." (Applause.)

Congressman Brooks' other remarks were directed to state issues. In speaking about the policy of Governor Peabody, Mr. Brooks struck straight from the shoulder and made a clean-cut issue between the Western Federation and against law and order. He said that it was not a question of the exact methods to pursue so much as the ultimate results which it was hoped to accomplish.

"If you look back after climbing a mountain you see a crooked path but you don't go back to climb over again, but, taking the advantage gained, proceed on your course.

"A former governor of this state spoke once of the peaceable possession of the mines by the union. How would it sound if a governor should say that the mob was in 'peaceable possession' of your home? It is the same thing whether it is a mine or a humble home that is involved and the possession of one will lead to the possession of the other in time.

Deportations and Taxes.

Mr. Brooks also spoke of deportations and gave instance after instance where men had been deported in this country. Among the references were to those of the expulsion of the Mormons and cases during the war of the rebellion.

The speaker dwelt in a humorous way on the slogan of the present candidate for governor on the Democratic ticket, "Let Us Have Peace," by reading the glowing account of Bourke Cockran's description of the conditions in the district under Governor Peabody.

The military tax bugbear was quickly disposed of by a few figures showing the actual burden of the debt on the taxpayer. This he showed to be about 25½ cents on each taxpayer of El Paso county for a period of thirty years including interest on the debt. "An insignificant sum," added the speaker "when the life and liberty of the individual in the state is considered."

BIG GRIDIRON BATTLE

Will Take Place Tomorrow Afternoon Between Tigers and Boulder---A Big Event of Season.

Tomorrow's game between the Tigers and Boulder will be a battle royal. Though odds are offered in favor of the Boulder team, those who have been watching the Tigers at practice during the past two months say that the Boulderites will have no walkaway and that the Tigers will not lose the game if spirit and coaching can win it for them.

Boulder has made a great reputation this season against Utah, Nebraska and Kansas, while the playing of the Tigers this month has been of the old-time form when they used to beat Boulder and make everything else in the state bugle for championship honors.

On top of two hours' hard practice in formations and scrimmages with the scrubs on Washburn field, the Tigers have been put through secret signal practice every evening in the gymnasium by Coach Juneau. Captain Lennox is in the game again at his old place at right end.

The students of the college are alive to the situation and will turn out in force tomorrow afternoon. Nearly 150 of them turned out last night to practice yell [illegible]

[illegible] the songs and yells in Perkins hall, in preparation for tomorrow. Some new yells were given out and learned. Will Bartlett will lead the rooters.

From Boulder comes the annual report that a number of its varsity men are crippled up and may not be in the game Saturday. Leavitt, Roberts and Cavanaugh, all good men, are those now said to be out of the game. The Boulder aggregation, however, is confident of victory, but the Tigers may have something to say about that between 2 and 5 o'clock Saturday afternoon.

Coach Malquith, of the State Agricultural college, and Coach Dawson, of Centennial High school of Pueblo, have been selected as the referee and [illegible] it is probable that both men will be available. Everything is getting in readiness for the big championship battle, the only one that the Tigers will play at home this season, and in all probability the hardest that they have to face on the schedule for the season of 1904.

RICHARDS CALLS OFF PUEBLO GAME

Principal Richards, of the High school, has cancelled the game scheduled to be played with the Centennial High school of Pueblo in that city tomorrow, and his bunch of scalping warriors will remain at home and see how the giants of the intercollegiate league go at it on Washburn field tomorrow afternoon.

Tomorrow's game was to be a practice game, and for several reasons the local principal has seen fit to call it off. These two schools are commonly accepted to be the two favorites for first place in the southern division and the game between them will be among the most interesting contests to be seen on the gridirons of the state this season.

The championship game is scheduled to be played here on November 12.

NEW CLASS IN BALL LEAGUES

THE NATIONAL ASSOCIATION OF LEAGUES VOTES TO ADD CLASS AA.—NATIONAL COMMISSION MUST APPROVE.

NEW YORK, Oct. 27.—After two days' routine business, the National Association of Professional Baseball leagues today took the most important action of its present convention, when it added what will be known as Class AA. The association voted, after much opposition on the part of the lower class leagues, to add the new class, subject to the approval of the national commission, and the national board of the association was empowered to appear before the national committee in January in favor of the organization.

If approval is given by the national commission, Class AA will be composed of the American association, the Pacific Coast and the Eastern leagues, and Class A of the Southern and Western leagues. All were formerly in Class A, except the Southern league, which has advanced from Class B.

The association voted to depart from its rule not to play exhibition games outside of national agreement clubs. Games will be played with semi-professional, professional and amateur clubs, when such games do not conflict with the schedule, but not with clubs which contain [illegible] players or players who are otherwise ineligible to play on national agreement clubs. Though already stringent, the rule concerning the employment of a "contract jumper" was made slightly more [illegible], in that a player who hereafter jumps a contract will be forever disqualified.

It was also decided that a player loaned by an association club to another association club must play with the latter through the season, and that he cannot be recalled by the club loaning him.

MRS. SCHMIDT SUCCUMBS AFTER LONG ILLNESS IN CALIFORNI

F. Boyle received a telegram late yesterday evening announcing the death of Mrs. Joseph Schmidt, at Los Angeles, Calif. The news will be received with surprise and sorrow by a large circle of friends of the deceased, who with her husband, was very popular in Colorado City. They went to California the early part of last month, taking with them their two small children. Mrs. Schmidt was apparently strong and robust, and none of her friends thought the end was so near.

The remains will be brought to Colorado Springs for interment. Rev. Father Raber, pastor of St. Mary's church, and a close friend of the deceased will officiate at the funeral, the date of which will be announced later.

Mr. Schmidt was a former resident of Colorado City, and a member of the Knights of Columbus. The couple were married only about four years ago.

The reasons why the women of Colorado Springs should support the Republican ticket will be dealt with clearly. The address of John M. The meeting this afternoon occurs at 2:30. Every woman voter, whether a member of the club or not is invited to attend and hear the reasons that will be advanced.

GRAND ARMY VETERANS HOLD RECEPTION FOR COMMANDER

It was a thoroughly representative assemblage that gathered in the Grand Army headquarters last evening, the occasion being a reception to Department Commander Zammar E. Downen and staff.

The large quarters of the Grand Army of the Republic were crowded to the doors and the reception was participated in not only by the G. A. R. veterans, but also by the Women's Relief corps and the Ladies of the G. A. R.

Department Commander Downen was given a hearty welcome when he stepped upon the platform. His remarks were devoted chiefly to the National G. A. R. encampment which will be held in Denver next August, and he impressed upon his hearers the importance of preparing for the occasion, which will be the biggest of its kind in the history of the department.

It is estimated that there will be nearly 5000 Grand Army of the Republic veterans in Denver during the encampment.

General Downen also spoke interestingly of his visits to different posts throughout this state and Wyoming.

He took occasion to compliment most highly the Women's Relief corps for the excellent work they have accomplished and are now doing.

The program which was rendered during the evening consisted of a solo by Mrs. Edward P. Mathews, an address by Miss Tucker, of Pueblo, who was a delegate to the national convention in Boston, a recitation by Mrs. Edward P. Mathews and addresses of welcome by General L. E. Sherman, Mrs. L. C. Dana, president of the Women's Relief corps, and Mrs. Joseph Horner, president of Kit Carson circle. Responses were made by Department Commander Downen, Senior Vice Commander S. G. Patrick, of Victor, Assistant Adjutant General Dan W. Brown, of Pueblo; Quartermaster General W. W. Ferguson, of Denver; Department Inspector A. A. Hopkins, of Pueblo, and Chief of Staff Colonel L. C. Dana, of Colorado Springs.

Following the solo by Miss Marion Sherman, "Tenting on the Old Camp Ground," in which the entire assemblage joined in the chorus, refreshments were served.

RECEPTION TO STUDENTS WAS GIVEN AT Y. M. C. A. LAST NIGHT

The Young Men's Christian association gave a reception to the students of Colorado college last evening in the auditorium of their building.

Over fifty of the college students were present while nearly 100 of the Y. M. C. A. members entertained them. The fore part of the evening was spent in listening to the following program: Recitation, O. L. Burch; whistling solo, Mr. Phenis; and a selection by the Mexicano quartet.

All the numbers were well received, especially the latter, when the four Solis brothers and their leader, Edward Sobarzo, performed on the Marimba. This instrument is made of Chapotillo wood and is said to be the only one of its kind in the world. The players drum on it with Chiapas sticks and make very peculiar but delightful music. Both classical and popular music was rendered and the quartet was recalled several times.

The quartet is traveling from the City of Mexico to the World's fair and will be in Colorado Springs for several days. It will give a concert at the Y. M. C. A. this evening for the benefit of the organization.

At the completion of the program refreshments were served in the Minnehaha Snack in the boys' parlor. The college students left for home at 11 o'clock after a most enjoyable evening.

The Solis Brothers will give an entertainment at the Y. M. C. A. tonight at which the following program will be rendered:

has been before you for the past 34 years. I will go into office clean-handed."

Mr. Adams' voice gave out at this point. He was very hoarse all the way through but here he could scarcely continue and hurriedly brought his speech to a close saying, in part:

His Promises.

"All Colorado needs is peace and prosperity. We will not harm the corporations, we will not harm the business men, we will do them good despite themselves, but we are going to see that the laboring man get their due. We appeal to every citizen for their votes. We promise no special favors to any, but absolute justice for all. We ask for the liberty of the courts, we ask that the courts shall be free from the tramp of the feet of soldiers, we ask that every citizen be given a trial and none be deported. Speeding along at a mile a minute, the executive special covered the Arkansas valley today, reaching at the little town of Holly in the cold gray of the morning. The banner bedecked train swept through beet and melon fields by fruit trees, rounded deep. Along the route the farmers stopped the plows and cheered while the women and children waved and smiled. Two hundred people filled the little hall at Holly, where the governor talked. Amity, the Salvation Army colony, was not on the schedule for a speech, but more than 100 people were at the station, and they had the building decorated. The governor spoke from the back of the train for five minutes. At nearly every point in the valley he urged the people to see [illegible] Attorney General Miller [illegible] the defense in the Kansas-Colorado water suit may be kept up.

Children Carried Flags.

At Granada the governor spoke to 200 from the rear of the car, among them more than 50 school children carrying flags. Lamar furnished the first large demonstration of the morning. The entire population seemed to be out, headed by a band. The schools had been dismissed for the day, that the children might hear the governor. In the run of the special between Lamar and Las Animas, the governor met Engineer Fleming and Fireman Littlejohn, and was invited to ride in the cab. The governor rode 40 miles with the crew and even poked up a few shovefuls while traveling at a mile a minute. Five hundred people gathered on the steps of the Bent county court house at Las Animas and listened attentively for an hour. Governor Peabody spoke for ten minutes and was followed by Judge K. R. Babbit, of Colorado Springs.

SOUTH AFRICA SLANG.

South Africans have their own characteristic colloquialisms and "slang," and as a result of their surroundings frequently use Kaffir and Dutch words that render their conversation puzzling to a "new chum." But it is with the ordinary slang that it is proposed to deal.

In the first place the colonial loves to deal, particularly in describing ... things. "Man" ... "Man" we must ... "Man" it was ... observed. Nobody ever steals (unless the police catch him), he only "lifts" the article, or, since the war, "commandeers" it. As in America, all drinks are "stiffers," while public houses become "canteens," a la military. Having entered the canteen, he will have either a "shandy" of beer and lemonade (the staple drink of the country), a "long" or a "pony" Lars. Should he go on the spree, he is said to be "having a birthday." With his "skoff" or food, he prefers tea to anything else, the water being doubtful in most places.

If any one tries to impose on him, or play him a trick, he is trying to "come the tick man," and will be told to "voetsek" (pronounced "footsack"), a Dutch epithet applied to dogs when you want them to get out of the way. Ne'er-do-wells and cadgers are "stiffs." Of course, natives of all sorts are "boys," the term "native" being applied to Indians and Asiatics generally. A female coon is invariably addressed as "Mary" and a male as "Sammy."—Tit-Bits.

"THE SAMBO GIRL."

The Sambo Girl will instruct ... a star at the Opera house next Tuesday evening that energetic comedienne, Miss Eva Tanguay. It will be recalled that Miss Tanguay achieved a great measure of success in singing a song entitled "The Sambo Girl" and the idea of writing a play around this title would seem to be a happy one. This thought, however, is not a new one inasmuch as Miss Marie Cahill adopted the same method last year with the more or less successful play entitled "Nancy Brown." "The Sambo Girl" was written by ... Henry E. Smith and Gustav Kerker and is said to offer the inimitable Tanguay every opportunity for the display of her quaint personality. Apart from the musical score which Mr. Kerker has furnished and which is said to contain many beautiful concerted numbers, he has also supplied a great quantity of catchy songs of that irresistable kind aptly described as whistleable. Among the ... that are sure to become popular we notice "A Ragtime Hit," "Don't Overdo," "If You Know What I Know," "How to Draw a Yacht," "My Ideal," "The Firefly," "What's the Use of Love," "From the Circus to Grand Opera," "But a Step," "A Banjo Serenade," "The Wishing Cure" and "The Sambo Girl."

THE LOST PARADISE

Tomorrow night at the Opera house Messrs. Woodward and Burgess present for an evening's engagement only the great labor play, "The Lost Paradise." This engagement is considered timely on account of the recent discussions of the labor question. "The Lost Paradise" is the best exposition of those situations which come up in every factory where labor is employed and it has been unanimously declared to be the only fair presentation of both sides of the question that has ever been seen on the stage. But "The Lost Paradise" is interesting aside from its connection with labor, for it has a story that is interesting from the beginning, employing, as it does, great heart interest and plenty of comedy. Everyone remembers that delightful little character "Cinders," and her quaint sayings and doings, and none will ever forget the great scene in the factory where the machinery is in full motion and the employees walk out. The love story of the superintendent of the factory and his employer's daughter makes the basis of the plot and complications, and the various side lights coming from the great diversity of characters makes the play commanding in its interest from the very rise of the curtain.

SIMPLE REMEDY FOR CATARRH

Just Breathe Hyomei Four Times a Day and Be Cured.

If a few years ago some one had said you can cure catarrh by breathing air charged with healing balsams the idea would have been ridiculed and it remained for that eminent investigator, R. T. Booth, to discover in Hyomei this method of cure.

Breath Hyomei through the inhaler for a few minutes ... it will cure the worst case of catarrh. It cleanses and heals the mucous membrane of the air passages, prevents irritation, and effects a complete and lasting cure.

In Colorado Springs there are scores of well known people who have been cured of catarrh by Hyomei. If it does not help you Stefley-Arbyl the Druggist will return the money you paid for Hyomei.

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N. Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often arise from restful sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief, but, finding that their medicine did not seem to cure me, I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me.

"I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to put away all other medicines and to take Lydia E. Pinkham's Vegetable Compound."—MISS NELLIE HOLMES, 540 No. Division St., Buffalo, N.Y.

Miss Irene Crosby, prominent in Social Life in East Savanah, Ga., adds her testimonial to the value of Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINKHAM:—"It always gives me pleasure to find an article of real value and unquestioned merit. I have found Lydia E. Pinkham's Vegetable Compound well calculated to relieve and cure the various troubles arising from irregularities and menstrual pains.

"Much suffering could be spared if we only paid more attention to proper living and diet, but as long as women do not do this, your Vegetable Compound has come to the front as a true friend in need. I have been very pleased indeed with the relief it has brought me. I find that I have perfect health now, and that my mind is also more clear and active since I used your Vegetable Compound. It has been of great benefit to me, and I gladly recommend it. Very sincerely yours, MISS IRENE CROSBY, 213 East Huntington St., East Savannah, Ga."

Remember that every woman is cordially invited to write to Mrs. Pinkham if there is anything about her case or symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass. Her advice is free, and is cheerfully given to any ailing woman who asks for it.

knowing that if he got thoroughly interested in the pursuit of game he would be out till long after supper time, persuaded him to come back to the house and they would have supper while he could go out again. "All right," said the farmer, "I will press these and we'll have them for supper." His wife remarked on the fullness of the crops of the birds, and on opening one it was found packed full of chinch bugs. Out of curiosity they counted and found over 40 of chinch bugs in the crop of one quail.

Said the farmer in relating the circumstance to us: "I just cleaned up the gun and have not shot a bird since, and if I ever come down to my place of an morning or evening and see the birds coming to my farm you'll think they knew their friends."

ENDEAVORERS AND CITY ELECTIONS

MOVEMENT TO UNITE WITH ANTI-SALOON LEAGUE FOR GOOD GOVERNMENT — MEETING LAST NIGHT.

The City Christian Endeavor union met in the parlors of the Young Men's Christian association building last evening, Vice President Howland presiding.

The first business to come before the meeting was the application of the Ashbury Epworth league for membership in the union. The application was granted.

A central look-out committee was appointed, consisting of the chairmen of the several society look-out committees. This committee will have charge of the general welfare of the union.

A committee consisting of Miss Minnie Stone and Messrs. Edward Jones and R. Crosby, was appointed to take up the matter of holding an echo meeting at the Boulder convention of the union.

The proposition to unite with the anti-saloon league in the city elections next spring was brought up and discussed. It was decided to refer the matter to the good citizenship committee with power to act.

The union then adjourned, subject to the call of the president.

CADETS IN THE LOWER GRADES

MOVEMENT ON FOOT TO ORGANIZE BATTALION OF EIGHTH GRADE BOYS — SCHOOL BOARD TO TAKE ACTION.

The question of organizing cadet companies in the grade schools of Colorado Springs is now being agitated, and if the hopes of those interested are realized this city will have one of the largest and best cadet corps in the west.

The eighth grade was removed from the High school to the various ward buildings this year, and this took away from the members of the eighth grade the opportunity of being cadets. A number of them had cadet uniforms, and these, with their comrades, have started the movement.

The matter will probably come before the board of education and if its permission is secured, the battalions will in all probability be organized.

[illegible] PEOPLE.

We had confidence from the very beginning that this medicine should make cures, but lacked that assurance that comes after many successful trials. Now that we have been witness to our belief we want to impart to others our confidence. Nervous and unsteady people, weak, fretfulness, nervous, pale or sallow people are all victims of weak, watery blood. Make pure, rich blood, to be forced through the system in the way of the arteries and disease cannot remain. This Tonic cures disease by giving you strength to resist it. All druggists sell it for $1 per box or 6 boxes for $5. The tablets are to be taken after each meal. They turn the food you eat into rich, red blood. Everyone who takes this Tonic gains in weight — 10 pounds from 1 to 3 months per week. For sale by Hedley-Arcularius Drug Co.

Special to the Gazette.

CRIPPLE CREEK, Oct. 27.—A change of feeling has come over many mining men, who a few years ago looked upon the west slope of Beacon hill as being a worthless proposition, or at the best, that it would prove a costly and uncertain proposition. Now the same mining men are convinced that Beacon hill is the richest spot in the whole district and that there exist the elements of fabulous values. Furthermore, that the extension of mining there are sufficient to be expected to have continuous and profitable life on Beacon hill for a number of years.

Some people think that the Beacon hill group will give the world at least the Portland. Then a few years ago, when the Portland was producing at the rate of $1,000,000 a year, the Beacon hill group was considered the richest group in the district. Now the Portland is producing at the rate of $1,000,000 a year, and the Beacon hill group is producing at the rate of $1,000,000 a year. The

A Sacrificing of Prices Incomparable

Smart Tailored Suits and Costumes Extraordinarily Reduced in Price.

Again we are compelled to demonstrate our reason for always having nothing but up-to-date ready-made clothes each season. It is true a certain number of garments must be carried from one season to the beginning of another. That is as long as they last here. We don't show these as up-to-the minute styles, nor do we expect their true value, be it is in modern merchandising. And for the fulfillment of this categorical principle of ours, it is necessary that we make the following prices.

The styles are those of last Summer and early Fall. The fabrics however, are weaves of the present season, such as cheviots, serges, novelties, Scotch mixtures, etamine, broadcloth, etc. With but a very few alterations their style can be made as new as the Fall modes.

Tailored suits, well made and prettily trimmed, selling regularly for $12, $15.50, $17.50 and $20, on sale while they last, for

$8.50

Beautiful suits of new materials, handsomely trimmed and can easily be made in the new styles. The regular prices are $40, $42.50, $45, $47.50, $50.50, $55 and $60, on sale now for

$20

Tailored suits of fine materials, made by the best tailors in the country, and can be made new with but a very few alterations. These are nearly trimmed and sell regularly for $29, $29.50, $31.50, $32.50, $33, $34, $35, $37.50 and $38. Your unrestricted choice, while they last for, only

$14

Taffeta Silks, 65c yard

The 3-A Colored Taffetas—There's all shades and it is guaranteed to give satisfaction. These silks are the kind sold elsewhere for 85c and 95c a yard. It's not necessary to go into detail as we believe the majority know of this famous 3-A quality.

Everyone who have used these silks are high in their praise. We want you to more thoroughly understand the silk superiority of this house, and we know of no better way than for you to make a thorough inspection.

Antheria Silk Lining, 58c

Resembles taffeta, but wears better. It is guaranteed for three seasons, can't tear, 19 inches wide and comes in all colors.

Fancy Velveteens, 75c yard

Choice Patterns in fancy velveteens for waists and suits. There are pretty shades of navy, deep, brown, black with neat figures and lots of metal prints and embroideries. Our price, yard, 75c.
